Start Up Loans: Getting Started

Start by visiting the Start Up Loans website and clicking on the 'Get Started Today' button. This will take you to a simple four step form that you will need to complete in order to register your interest.

The first stage of the form is checking to see if you are eligible for a loan by answering a few simple questions. Next, the form will ask you to provide us with some basic information, such as your contact details. Your details will then be shared with one of Start Up Loans' network of Delivery Partners who will contact you to discuss your plan.

What is a Delivery Partner?

The Start Up Loans Company works with a network of expert Delivery Partner organisations who support Start Up Loans applicants in all regions and industries throughout the UK. They will be responsible for providing pre-loan support, making the loan decision and providing ongoing support and mentoring for the first 12 months after you draw down the loan.

Application Process

Once you've been contacted by your Delivery Partner you should expect to discuss your business idea with them. They will then work with you to submit the following documents:

- Business Plan
- Cash Flow Statement
- Personal Survival Budget
- Photo ID
- Proof of Address
- CV
- Copy of the last consecutive 3 months of current account Personal Bank Statements, so we can assess your affordability in line with our responsibilities as a lender

If you need support with your business plan, cash flow or personal survival budget, templates are available on the Start Up Loans website and Delivery Partners will offer support and guidance throughout your loan application.

How long does the process take?

The more preparation you have done the quicker Start Up Loans, or one their Delivery Partners, will be able to process your application. This means submitting documents as well as having a business plan and cash flow ready.
